Progress (including problems and management)	
Discharge Date	

14 Did you attend BAC consumer transition of care planning meetings. If so, in relation to these meetings:

(a) Explain the function/purpose of these meetings. What did they involve?

14.1 As far as I can recall, I did not attend any BAC Consumer Transition of Care Planning Meetings. I am not aware of the function or purpose of these meetings.

(b) How often did the group meet?

14.2 Not applicable.

(c) Who attended?

14.3 Not applicable.

MEGAN HAYES

14687296/2

WITNESS

(d) What were the resolutions or findings or actions determined as a result of those meetings?

14.4 Not applicable.

15 Were you involved in the 'Complex Care Review Panel'? If so, in relation to this Panel:

(a) Explain the function/purpose of the Panel.

15.1 As far as I can recall, I was not involved in the Complex Care Review Panel. I am not aware of the function or purpose of the Complex Care Review Panel.

(b) How often did the Panel meet?

15.2 Not applicable.

(c) Who constituted the Panel?

15.3 Not applicable.

(d) What were the resolutions or findings or actions determined as a result of those meetings?

15.4 Not applicable.

16 If you were involved in the Complex Care Review Panel which convened to support the transition of care for patients, outline for each patient:

(a) Was a Consumer Care Review Summary (CCRS) developed for each patient? What did this involve? Please provide copies.

16.1 Not applicable.

MEGAN HAYES

14687296/2

WITNESS

EXHIBIT 62

(b) How were high risk situations identified and mitigated?

16.2 Not applicable

(c) How was the clinical risk during the transition of care of the patients from BAC to alternative care options managed?

16.3 Not applicable.

17 Outline and elaborate upon any other information or knowledge (and the source of that knowledge) that you have relevant to the Commission's Term of Reference.

17.1 Nil.

18 Identify and exhibit all documents in your custody or control that are referred to in your witness statement.

18.1 All documents referred to in my witness statement are exhibited.

And I make this solemn declaration conscientiously believing the same to be true and by virtue of the provisions of the *Oaths Act 1867*.

Taken and declared before me by)

Occupational Therapist

Curriculum Vitae

KEY SKILLS & ATTRIBUTES

- *Ability to collaborate effectively within a multidisciplinary team to ensure optimal client outcomes are achieved.*
- *Organisational skills in management of multiple roles with efficiency and timeliness in documentation to ensure key performance indicators are met.*
- *Ability to adapt and modify assessment and treatment process for complex and varied caseload considering evidence based practice.*
- *Child and family focused interactions and feedback of important information to assist in discharge planning and successful transition of skills to home environment.*
- *Commitment to ongoing professional development and supervision to ensure currency of practice.*
- *Commitment to initiating additional learning opportunities and role variation to ensure diversity of clinical skills.*

EMPLOYMENT HISTORY

Occupational Therapist
Child Mental Health Unit, LCCH
 November 2014-present

- **Chair** of reduction in seclusion/restraint working group.
- **Case management** of consumers with complex mental health needs within a multidisciplinary team.
- **Assessment of the complex care needs of consumers** using a variety of standardized and non-standardized assessment tools in collaboration with members of a **multidisciplinary team**.
- **Presentation of complex clinical information in a meaningful way** to relevant stakeholders through feedback sessions, detailed Assessment reports, Outcomes assessments, communication of results to multidisciplinary team in team meeting forum.
- **Development of a multisensory group program** focusing on assessment of child and family sensory preferences, development of skills in identifying arousal states in daily routine, consumer skills training and opportunities for attachment based work with family members as appropriate.
- Active participation in the **initiation, development and implementation of quality and service improvement activities** that enhance the delivery of multidisciplinary services and assist in meeting key performance indicators. This includes development of a multisensory room, staff training, participation in reduction in seclusion/restraint initiatives and leadership of sensory processing working group and ongoing evaluation.
- Commitment to the development of high level skills and clinical experience through ongoing **professional development**.

Occupational Therapist
Child and Family Therapy Unit, Royal Children's Hospital
 February 2014 – November

Professional responsibilities:

- **Establishment of the Occupational Therapy role** as part of a child and family inpatient mental health setting with focus on assessment, consultation, intervention and discharge planning.
- **Assessment of the complex care needs of consumers** using a variety of standardized and non-standardized assessment tools in collaboration with members of a **multidisciplinary team**.
- **Presentation of complex clinical information in a meaningful way** to relevant stakeholders through feedback sessions, detailed Assessment reports, Outcomes assessments, communication of results to multidisciplinary team in team meeting forum.
- **Development of a multisensory group program** focusing on assessment of child and family sensory preferences, development of skills in identifying arousal states in daily routine, consumer skills training and opportunities for attachment based work with family members as appropriate.
- Active participation in the **initiation, development and implementation of quality and service improvement activities** that enhance the delivery of multidisciplinary services and assist in meeting key performance indicators. This includes development of a multisensory room, staff training, participation in reduction in seclusion/restraint initiatives and leadership of sensory processing working group and ongoing evaluation.
- Commitment to the development of high level skills and clinical experience through ongoing **professional development**.

Occupational Therapist - Life Skills Focus

Barrett Adolescent Centre – The Park Centre for Mental Health
 September 2013 – February 2014; January 2007 – June 2009;

Professional responsibilities:

- Delivery of a **high level, consumer focused occupational therapy** service focused on life skill development for adolescents experiencing complex mental health conditions impacting their daily functioning.
- Member of the **transitional clinical care panel** facilitating discharge of complex clients to appropriate community support agencies and mental health services due to closure of Barrett Adolescent Centre. **Liaisons with key stakeholders**, multidisciplinary team, clients and family members to facilitate transition process.
- **Assessment of the complex care needs of consumers** using a variety of standardized and non-standardized assessment tools. **Planning, implementation and evaluation of individual and group-based programs** with a focus on life skills in a range of traditional and non-traditional care settings including inpatient and community based settings with variable environment supports and resource availability.
- **Presentation of complex clinical information in a meaningful way** to relevant stakeholders through feedback sessions, detailed Assessment reports, Outcomes assessments, communication of results to multidisciplinary team in team meeting forum.
- **Provision of clinical practice supervision** to less experienced occupational therapy practitioners, cross discipline and pre-entry students. **Provision of professional and practice support to cross discipline staff and educators within local, community and state-wide forums**. Presentations given included sensory processing techniques in a mental health setting, behavior management planning, development of a multisensory room, the role of Occupational Therapy in a mental health setting, competencies for independence (outlining self-care, productivity & leisure components)
- Commitment to the development of high level skills and clinical experience through ongoing **professional development**.

- Active participation in the **initiation, development and implementation of quality and service improvement activities** that enhance the delivery of multidisciplinary services including the development of a multisensory room, redesign and redevelopment planning involvement, application for funding for community linking programs and service specific research cells.

Occupational Therapist
Child Development Program – North West Community Health
 July 2011-April 2012

Professional responsibilities:

- Provision of Occupational Therapy services for **school aged children with a variety of developmental difficulties and delays.**
- **Collaboration with a multidisciplinary team** throughout assessment and intervention process to ensure coordinated and thorough care approach.
- **Assessment** using a variety of standardized and non-standardized assessment tools.
- Completion of thorough **documentation** related to provision of services for this population group in a timely manner.
- **Innovative intervention** plans developed, completed and evaluated. **Engagement with families and key stakeholders** including school staff to ensure continued application of intervention techniques.
- **Consultation-liaison with key stakeholders** including families, schools, other agencies to provide education and support allowing for co-ordination of care across settings.

Occupational Therapist

Education Queensland
 September 2010-June 2011

Professional responsibilities:

- Provision of Occupational Therapy services for **students with a verified diagnosis** including physical, visual, intellectual, hearing, autistic-spectrum, speech-language impairment or multiple impairments.
- **Consultation-liaison within an educational team and allied health professionals** to provide assessment and innovative intervention to enable students to achieve greater participation within the school program.
- **Consultation-liaison with external agencies** involved in the clients' care including government and non-government services. Eg. Cerebral palsy league
- **Assessment, documentation, reporting, intervention and evaluation** for the **paediatric population** with a focus on school participation and access.
- **Education and training** for teaching staff and families in ways they can support the child to better access the curriculum and home and school environments.

PROFESSIONAL MEMBERSHIPAustralian Health Practitioner Regulation Agency #: **EDUCATION****Professional Development****2015**

- Circle of Security parent DVD training
- Sensory attachment intervention
- Metalization training

2013-2014

- Mental Health Act 2000 Training (*awaiting authorized mental health practitioner certification*)
- Non Violent Crisis Intervention
- Sensory Attachment Intervention - Eadoin Bhreathnach
- Outcomes training
- Mental State Examination QCMHL E-Learning

2006-2012

- Aggressive Behaviour Management Training
- QLD Health Child Safety, Child Abuse & Neglect Training
- Functional Independence Measure (FIM) Training
- Eating Disorders Conference
- CYMHS Workshop Intensive
- Motivational interviewing
- Clinical Educator Training at UQ
- Education Queensland Training and Development Conference
- Splinting Skills Workshops
- Sensory Processing Conference – “Getting Kids in Sync”
- Manual Handling Training

Tertiary**Bachelor of Occupational Therapy (2003-2006)**

The University of Queensland

Achievements:

- Cumulative Grade Point Average: **6.173**
(On a scale of 1-7 where 7 = equivalent of a High Distinction)
- Awarded **Dean's Commendation** for academic achievement (2003-2006)

Secondary**Senior studies** completed (2002)

St. Ursula's College, Toowoomba

Achievements:

- Awarded an **Overall Position of 2**
- Received multiple **academic** and **cultural achievement awards**

Primary

Sacred Heart Primary School - Toowoomba (1997)

St. Thomas's Primary School - Mareeba (1991-1996)

Subject: Update

Hi Megan,

I hope everything is going well for you.

Just thought I should touch base with you about BAC. Have you been keeping up to date via Kimmy?

As a quick summary:

- BAC rebuild in Redlands will not go ahead
- The current building is in disrepair and it has been decided that it is inappropriate for adolescents to be co-located with adults with forensic orders.
- They are currently looking for a suitable facility elsewhere, but generally there is a strong sense that BAC may be closed as there are more than 17 vacancies in CYMHS across the state.

Megan, you are still affiliated with BAC as your permanent position. Depending on the outcome of these deliberations, you may be considered for a separation package should your position be removed as a result of re-organisation. There is an option of becoming surplus but only for 4 months. Your permanency may then be cancelled I understand.

I don't know how this all works, but thought I should just flag it with you.

May I suggest that you contact Kathryn White to clarify the implications for yourself.

There are major changes here at present, effecting every position no different to anywhere else in Qld Health at present.

I hope you and your family are well. I hope Xmas brings many blessings and joyous times to you all.

Kind regards,

Lorraine
OT - The Park

Dear Megan

I am currently acting as the Director of Allied Health and Community Mental Health while Michelle Giles is on leave.

A meeting was called today with the staff of the Barrett Adolescent Centre. I understand you are on leave, but wanted to ensure you were able to access the information discussed at today's meeting.

Please find attached three documents regarding the Barrett Adolescent Strategy for your information.

You are also very welcome to call me (contact details below) tomorrow or at any time throughout the week to discuss this information and any questions you may have. Alternatively, you are also welcome to contact Lorraine Dowell, who was present at the meeting today.

Regards
Leanne

West Moreton Hospital and Health Service

Expert Clinical Reference Group Recommendations
Barrett Adolescent Strategy
July 2013

Adolescent Extended Treatment and Rehabilitation Services (AETRS) Recommendations Submitted to the West Moreton Hospital and Health Board

1. Broader consultation and formal planning processes are essential in guiding the next steps required for service development, acknowledging that services need to align with the National Mental Health Service Planning Framework

ECRG Recommendations	Planning Group Recommendations
a) Further work will be required at a statewide level to translate these concepts into a model of service and to develop implementation and funding plans.	Accept with the following considerations. The responsibility for this task at a statewide level sits with the Mental Health Alcohol and Other Drugs Branch and the Children's Health Services. A collaborative partnership is proposed.
b) Formal planning including consultation with stakeholder groups will be required.	Accept with the following considerations. This body of work should be incorporated into the statewide planning and implementation process (as above).

2. Inpatient extended treatment and rehabilitation care (Tier 3) is an essential service component

ECRG Recommendation	Planning Group Recommendation
a) A Tier 3 service should be prioritised to provide extended treatment and rehabilitation for adolescents with severe and persistent mental illness.	Accept with the following considerations. Further work is needed to detail the service model for a Tier 3. Models involving a statewide, clinical bed-based service (such as the Barrett Adolescent Centre) are not considered contemporary within the National Mental Health Service Planning Framework (<i>in draft</i>). However, there are alternative bed-based models involving clinical and non-clinical service components (e.g., Y-PARC in Victoria) that can be developed in

ECRG Recommendation	Planning Group Recommendation
	<p>Queensland to meet the requirement of this recommendation.</p> <p>Contestability reforms in Queensland may allow for this service component to be provider agnostic.</p>

3. Interim service provision if BAC closes and Tier 3 is not available is associated with risk

ECRG Recommendations	Planning Group Recommendations
a) Safe, high quality service provision for adolescents requiring extended treatment and rehabilitation requires a Tier 3 service alternative to be available in a timely manner if BAC is closed.	Accept.
b) Interim service provision for current and 'wait list' consumers of BAC while Tier 3 service options are established must prioritise the needs of each of these individuals and their families/carers. 'Wrap-around care' for each individual will be essential.	<p>Accept with the following considerations.</p> <p>While this may be a complex process for some consumers and their individual needs, it was noted that this course of action could start immediately, and that it was feasible. The potential to utilise current BAC operational funds (temporarily) to 'wrap-around' each consumer's return to their local community was noted as a significant benefit.</p> <p>The relevant local community should play a lead role in the discharge of the consumer from BAC and their return to home. The local services need to be consulted around their ability to provide 'wrap-around' care.</p>
c) BAC staff (clinical and educational) must receive individual care and case management if BAC closes, and their specialist skill and knowledge must be recognised and maintained.	<p>Accept.</p> <p>The ECRG and the Planning Group strongly supported this recommendation.</p>

4. Duration of treatment

ECRG Recommendation	Planning Group Recommendation
<p>a) 'Up to 12 months' has been identified by the ECRG as a reasonable duration of treatment, but it was noted that this depends on the availability of effective step-down services and a suitable community residence for the young person. It is important to note that like all mental health service provision, there will be a range in the duration of admission.</p>	<p>Accept with the following considerations.</p> <p>This issue requires further deliberation within the statewide planning process.</p> <p>The duration of treatment needs some parameters to be set, however, this is primarily a clinical issue that is considered on a case-by-case basis by the treating team and the consumer.</p>

5. Education resource essential: on-site school for Tiers 2 and 3

ECRG Recommendations	Planning Group Recommendations
<p>a) Access to on-site schooling (including suitably qualified educators), is considered essential for Tiers 2 (day programs) and 3. It is the position of the ECRG that a Band 7 Specific Purpose School (provided by Department of Education, Training and Employment) is required for a Tier 3 service.</p>	<p>Accept with the following considerations.</p> <p>The Planning Group recommends removing "Band 7" from the ECRG recommendation. All educational services need to be evaluated by Department of Education, Training and Employment (DETE) on a case-by-case basis, taking into consideration service model, location, student numbers and complexity.</p> <p>The Planning Group supports the statement that educational resources are essential to adolescent extended treatment and rehabilitation services.</p> <p>The Planning Group recommends consultation with DETE once a statewide model is finalised.</p>

ECRG Recommendations	Planning Group Recommendations
b) As an aside, consideration should also be given to the establishment of a multi-site, statewide education service for children/adolescents in acute units (hub and spoke model).	<p>Accept with the following consideration.</p> <p>The Planning Group recommends this statement should be changed to read as:</p> <p>Strong consideration should be given to the establishment of a multi-site, statewide education service for children/adolescents in acute units (hub and spoke model).</p>

6. Residential Service: Important for governance to be with CYMHS; capacity and capability requires further consideration

ECRG Recommendations	Planning Group Recommendations
a) It is considered vital that further consultation and planning is conducted on the best service model for adolescent non-government/private residential and therapeutic services in community mental health. A pilot site is essential.	<p>Accept with the following consideration.</p> <p>Note that this service could be provider agnostic.</p>
b) Governance should remain with the local CYMHS or treating mental health team.	Accept.
c) It is essential that residential services are staffed adequately and that they have clear service and consumer outcome targets.	Accept.

7. Equitable access to AETRS for all adolescents and families is high priority; need to enhance service provision in North Queensland (and regional areas)

ECRG Recommendations	Planning Group Recommendations
a) Local service provision to North Queensland should be addressed immediately by ensuring a full range of CYMHS services are available in Townsville, including a residential community-based service.	Accept.
b) If a decision is made to close BAC, this should not be finalised before the range of service options in Townsville are opened and available to consumers and their families/carers.	Accept.

West Moreton Hospital and Health Service
Children's Health Queensland Hospital and Health
Service

**Queensland
Government**

What is the Barrett Adolescent Centre (BAC)?

Barrett Adolescent Centre is a 15-bed inpatient service for adolescents requiring longer term mental health treatment. It is currently located within The Park – Centre for Mental Health campus. The Park will be a secure forensic adult mental health facility that provides acute and rehabilitation services by December 2013.

This ongoing redevelopment at The Park means this is no longer a suitable place for adolescents with complex mental health needs.

What is happening to BAC?

Barrett Adolescent Centre will continue to provide care to young people until suitable service options have been determined. We anticipate adolescents requiring extended mental health treatment and rehabilitation will receive services through a new range of contemporary service options from early 2014.

An expert clinical reference group has determined that adolescents require specialised and appropriate care options where they can be as close as possible to their community, families and support systems. West Moreton Hospital and Health Service will work closely with hospital and health services across the state, as well as other mental health care providers to ensure appropriate care plans are in place for all adolescents who require care.

We will also work together with the community and mental health consumers to ensure their needs are met.

Who was in the expert clinical reference group?

Members of the expert clinical reference group comprised adolescent mental health experts from Queensland and interstate, a former BAC consumer and the parent of a current BAC consumer.

What will happen to the consumers currently being treated at BAC?

West Moreton Hospital and Health Service is committed to ensuring no adolescent goes without the expert mental health care they require. The goal is to ensure our youth are cared for in an environment that is best suited for them. It is in the best interests of young people that they are not cared for in the same environment as adult mental health consumers who require high secure care.

Care coordinators and clinicians will work closely with the consumers, families and services to ensure that the appropriate care and support is provided for them.

What happens if there are not enough spaces for young people in other services?

The implementation group will consider all the available services and any extra services that might be required to support this particular group of adolescents.

What will happen to the young people currently waiting for a place in BAC?

Each individual adolescent that has been referred to the BAC and is currently on the waiting list for care will be considered on an individual basis. Clinicians will work with local and statewide services to determine how their needs can be best met in a timely manner.

How can the Queensland Government know this is the best option for the young people of the state?

This decision has been carefully considered and the recommendations made by an expert clinical reference group. The expert clinical reference group considered a range of options and recommended a number of strategies to better support the adolescent needs. These strategies will include both inpatient and community based services.

What is the process, and how long will it take, to transfer the existing consumers to other services or facilities?

The governance of the adolescent mental health service has been handed to the Children's Health Queensland Hospital and Health Service and an implementation group will progress the next step. This group will use the expert clinical reference group recommendations, and broader consultation, to identify and develop the service options.

We anticipate that some of those options will be available by early 2014.

Is this a cost cutting exercise?

No, this is about the safety and wellbeing of young Queenslanders in need of mental health support services and treatment. The Queensland Government has committed a further \$2 million dollars to support the new models of care and services.

What happens to the funding previously allocated to BAC?

Funding that would have been allocated to BAC will be dispersed appropriately to the organisations providing the new services or treatment as part of the implementation group decision making.

Will jobs be lost?

West Moreton Hospital and Health Service will work closely with each individual staff member who is affected to identify options available to them. The hospital and health service is committed to following appropriate human resource processes.

What about the education services?

The Department of Education, Training and Employment is committed to continuing education plans for all BAC consumers.

How can I contribute to the implementation process?

The implementation group will include on their membership a range of stakeholders inclusive of families, carers and consumers. As the strategies are developed ongoing consultation will occur to ensure the best possible care for our adolescents in the most appropriate setting.

Media Statement

6 August 2013

Statewide focus on adolescent mental health

Statewide governance around mental health extended treatment and rehabilitation for adolescents will be moving to Children's Health Queensland.

West Moreton Hospital and Health Service Chief Executive Lesley Dwyer and Children's Health Queensland Chief Executive Dr Peter Steer today said adolescents requiring extended mental health treatment and rehabilitation will receive services through a new range of contemporary service options from early 2014.

Ms Dwyer said the young people who were receiving care from Barrett Adolescent Centre at that time, would be supported to transition to other contemporary care options that best meet their individual needs.

She said West Moreton Hospital and Health Service had heard the voices of staff, consumers and their families, and engaged an expert clinical reference group over the past eight months.

"After taking into consideration the recommendations of the expert clinical reference group and a range of other key issues in national and state mental health service delivery, the West Moreton Hospital and Health Board determined that the Barrett Adolescent Centre is no longer an appropriate model of care for these young people," Ms Dwyer said.

"The board also determined that a number of alternative models will be explored over the coming months under the leadership of Children's Health Queensland.

"It is important to put the safety and individual mental health needs of these adolescents first by providing the most contemporary care options available to us in the most suitable environment.

"It is time for a new statewide model of care. We are also striving to provide services closer to home for these young people, so they can be nearer to their families and social networks," Ms Dwyer said.

Dr Steer said as part of its statewide role to provide healthcare for Queensland's children, Children's Health Queensland would provide the governance for any new model of care.

"This means that we will work closely with West Moreton HHS as well as other hospital and health services and non-government agencies to ensure there are new service options in place by early 2014," Dr Steer said.

"This model of care may include both inpatient and community care components.

"Understanding what options are needed has already begun with the work of the expert clinical reference group, and now we can progress this further and implement the best options for these young people," he said.

"This is a positive step forward for adolescent mental health care in this state," Dr Steer said.

Hi Megin,

Please find below my recommendations for urgent housing options for your [REDACTED]

Anglican Women's Hostel	[REDACTED]	18+ years	[REDACTED]
Bahloo Women's Shelter	[REDACTED]	16-25 years	[REDACTED]
Hannah's House	[REDACTED]	13-17yrs	[REDACTED]

Caboolture Youth Shelter	[REDACTED]	14-21 years	[REDACTED]
Chameleon Housing	[REDACTED]	16-17 years	[REDACTED]
Ipswich Independent	[REDACTED]	16-21 years	[REDACTED]
Nathanael House	[REDACTED]	15-17 years	[REDACTED]
Orana Youth Shelter	[REDACTED]	16-18 years	[REDACTED]
Youth Emergency Services	[REDACTED]	15-18 years	[REDACTED]

None of these options will likely be ideally suited for your [REDACTED] needs as they are homelessness services not mental health services and so are not necessarily well equipped to adequately support chronic, high needs mental health. They are all crisis shelters and so have a worker on 24 hrs and can accommodate for around 3 months; however there are no guarantees that long term housing will be sourced in that timeframe.

I spoke with my CEO about your situation and she has suggested that the most appropriate action for you take would be to approach some fellow government departments. So the first thing you should do is contact the Dept. Housing and Public Works for housing for the [REDACTED] who need such urgently.

For support, she suggested that for your [REDACTED] you approach child safety services and for [REDACTED] Disability Services and request appropriate support packages for them, as it is unlikely that any homelessness service will have the resources to provide intensive enough support for those young women (i.e. 24 hr, very long term, etc). These government bodies should be able to provide the appropriate 24 hr care your [REDACTED] need.

With regards to your other young people who may be looking for other support; here is our website www.brisyouth.org and attached is our activities schedule for October.

My CEO also suggested that you contact Partners In Recovery at the [REDACTED] Medicare Locals and request their support to source appropriate care packages for your [REDACTED] I don't know too much about them, sorry, but I do know that they don't provide the services but assist in sourcing such.

Also, for ongoing psychological treatment Headspace is probably the best placed service to provide psychological care

Please let me know if there is any further information I can provide you with!

Kind Regards,

Erin Field

Subject: Support Services for Barrett Adolescent Centre clients

Dear Karen,

We have received your contact details through the Youth at Risk Initiative (YARI)/Youth Support Co-ordinator Initiative (YSCI) from the Department of Communities.

Barrett Adolescent Centre is a service that provides medium term, recovery-oriented treatment and rehabilitation for young people aged 13-18 years with severe and persistent mental health problems, which significantly interfere with social, emotional, behavioural and psychological functioning and development. It is in the process of being closed in January 2014, therefore we are transitioning our clients to suitable community services.

We are interested in connecting our young people with services that provide life skill development, vocational/educational supports, community integration and age-appropriate leisure programs. The majority of our young people experience varying levels of anxiety and have been disengaged with their local communities for a period of time while they have been receiving inpatient mental health care, including attending an alternate education program.

Could you please contact Vanessa Clayworth (Clinical Nurse Consultant) or Megan Hayes (Occupational Therapist) on [REDACTED] or [REDACTED] or via email with any support programs you are able to offer or to discuss further. We hope you can appreciate the time sensitive nature of this matter and the vulnerability of the young people involved.

Kind regards

Megan Hayes

Subject: Support services for Barrett Adolescent Centre clients

Dear Ivan and Leah,

We have received your contact details through a service integration officer for QHealth in Metro South.

Barrett Adolescent Centre is a service that provides medium term, recovery-oriented treatment and rehabilitation for young people aged 13-18 years with severe and persistent mental health problems, which significantly interfere with social, emotional, behavioural and psychological functioning and development. It is in the process of being closed in January 2014, therefore we are transitioning our clients to suitable community services.

We are interested in connecting our young people with services that provide life skill development, vocational/educational supports, community integration and age-appropriate leisure programs. The majority of our young people experience varying levels of anxiety and have been disengaged with their local communities for a period of time while they have been receiving inpatient mental health care, including attending an alternate education program.

Could you please contact Vanessa Clayworth (Clinical Nurse Consultant) or Megan Hayes (Occupational Therapist) on [REDACTED] or [REDACTED] or via email with any support programs you are able to offer or to discuss further. We hope you can appreciate the time sensitive nature of this matter and the vulnerability of the young people involved.

Hi Megan,

Thank-you for the email, Nextt is very interested to do whatever we can to assist with the successful transition of the young people you have mentioned into the community.

Based on what you have specified within your email it sounds like our LIFE (Life Independence for Everyone) Program would be most relevant. I've attached a brochure for your reference.

Can you confirm if the young people will have individual funding that will be available to support them?

Please do not hesitate to give me a call on [REDACTED] to discuss this further.

Kind Regards,

Cassie Causton

Program Manager Mental Health

Subject: Support Services for Barrett Adolescent Centre clients

Dear Cassie,

We have received your contact details from the service integration officer for Metro South.

Barrett Adolescent Centre is a service that provides medium term, recovery-oriented treatment and rehabilitation for young people aged 13-18 years with severe and persistent mental health problems, which significantly interfere with social, emotional, behavioural and psychological functioning and development. It is in the process of being closed in January 2014, therefore we are transitioning our clients to suitable community services.

We are interested in connecting our young people with services that provide life skill development, vocational/educational supports, community integration and age-appropriate leisure programs. The majority of our young people experience varying levels of anxiety and have been disengaged with their local communities for a period of time while they have been receiving inpatient mental health care, including attending an alternate education program. [REDACTED]

Could you please contact Vanessa Clayworth (Clinical Nurse Consultant) or Megan Hayes (Occupational Therapist) on [REDACTED] or [REDACTED] or via email with any support programs you are able to offer or to discuss further. We hope you can appreciate the time sensitive nature of this matter and the vulnerability of the young people involved.

Kind regards

Megan Hayes

Subject: RE: Support services for Barrett Adolescent Centre clients

Hi Megan

Thanks for the comprehensive information concerning your enquiry relating to services for young people leaving the Barrett Adolescent Centre and [REDACTED].

Unfortunately, RFQ currently only provides services to young adults (in its Transitional Residential Community) and to adults with moderate to severe mental illness in a range of programs in the South East corner of Queensland. Although RFQ is interested in moving into providing services to young people for the most part we rely on government funding of our services.

So although RFDQ has considerable expertise in providing services to people with severe and persistent mental illness with complex needs unless funding was available to provide support to these young people it is unlikely we can help you very much.

However, I am still happy to have a conversation if think that might be helpful, my contact numbers are below.

Kind regards

Larry

Good Morning Megan,

Thanks for your email! It was great to come and meet with everyone, I only wish our circumstances were different so we could offer some of the young people matches. ☹

Anyhow, in answer to your question regarding [REDACTED] I am the best contact for that as I'm currently responsible for implementing the program in that area. One of the things I forgot to mention yesterday, the funding received for [REDACTED] comes with a little bit of bureaucratic restraint;

90% of the matches made in this area will be aged 7-12. This is not to say we cannot match some older young people.

I hope this helps and please don't hesitate to get in touch should you need any further information.

Kind Regards,

Thomas Rowson
