Subject: parent support BAC

Hi

After talking with [REDACTED] [REDACTED] [REDACTED]) it is clear that your idea of parent support is a good one. The Sandra Radovini forum as a group but possible Kathy S as an individual support person to assist with their anxieties of how to move on with their young person post BAC. Happy to help organise this.

Subject: Request for meeting early next week

Hi all

There are significant issues in implementing the transitional care plans for the [REDACTED] of BAC. Elisabeth Hoehn and I would like to meet with you to address these. We could do so before or after the exec mtg on Wednesday, or earlier in the week if Wednesday is not convenient for you.

Thanks

Anne

Subject: BAC

Hi Sharon

We have informed each of the [REDACTED] about the components of their transition from BAC care packages in a step wise fashion so they could process this information without unacceptable risks to their personal safety.

I am concerned that the delays we are now experiencing in implementing these packages is impacting clinical care. I know we will discuss how to progress these on Wednesday. We will need clear direction then regarding duration of remaining care at BAC, availability or otherwise of funding for support within [REDACTED] and duration of such financial support if it is available.

The [REDACTED] placement is not solely dependent on funding. The suggestion from the psychiatrist there today is that it may need to be addressed by the minister. We have one last option to explore in that regard, but I thought I should give you as much warning as possible.

I am happy to discuss these matters with you before Wednesday if that is helpful.

Hi All

Marie Kelly and I have been working on the options for providing additional \$ to [REDACTED] and [REDACTED] to provide the [REDACTED] at BAC with extraordinary NGO support and care when they transition to their [REDACTED]

I liaised with Bill Kingswell this morning, and he agrees with providing \$ to the 3 HHSs for this purpose. Marie has confirmed with FCMU that there is \$ available for this financial year from the \$2M that the MHAODB transferred to FCMU.

The process would most likely be sending the \$ in the next window amendment, and the respective HHSs would then utilise according to the requirements specific to the [REDACTED] time limited to this FY.

Now we need to define how much - I am going to link in to a mtg tomorrow with the MHAODB and you Stephen, so we can consider together.
thanks, Leanne

Hi Leanne

Sorry - I had meant to catch Terry last week but didn't manage to. My thought is that given the request was directed to WM, I think the reply should come from the HHS - particularly as the main reason for no is more that WM and CHQ don't support rather than it being about absolutely no funding available.

Bill is away for another week and Jacinta Powell is the A/ED signing correspondence this week - If there are further issues, give me a call and we can discuss further.

Hi Bill and Kristen

Can I check in with you about this one? I have attached the email trail, and would like [REDACTED] to be provided with a response to their request for funding.

I am not sure if this response should come from MHAODB, or whether it is more appropriate to come from CHQ.

Copies to:	Mental Health Clinical Clusters		
From:	Executive Director, Mental Health and Specialised Services, West Moreton Hospital and Health Service	Contact No:	
		Fax No:	
Subject:	Admissions to Barrett Adolescent Centre		
		File Ref:	Ref Number

As you may be aware the West Moreton Hospital and Health Service (WMHHS) is working towards closing the Barrett Adolescent Centre (BAC) building by the end of January 2014. This is a flexible date that will be responsive to the needs of our consumer group and will be dependent on the availability of ongoing care options for each young person currently at BAC.

WMHHS remains committed to safe, smooth and individually appropriate transitions of care for each young person currently attending BAC. In order to meet this goal, there will be no further admissions to BAC services. This also means that no new referrals will be accepted to the waitlist. WMHHS will be working with the referring Hospital and Health Service to ensure no loss of service provision to those young people currently on the BAC waitlist.

The Children's Health Queensland (CHQ) has commenced work with stakeholders from across the state to develop the future model of adolescent extended treatment and rehabilitation services. Further information about these developments will be provided by CHQ in the near future.

Until then, please contact Dr Stephen Stathis on [redacted] to discuss any clinical issues for patients who may require extended mental health treatment and rehabilitation, and are unable to be managed within your health service.

If you have any other questions regarding BAC, please contact me on [redacted].
 Additionally for further updates about BAC please visit:
<http://qheps.health.qld.gov.au/wm/html/about/projects-planning.htm>

Hi Lesley

Elisabeth and I have put together the high level documents attached to outline our collective thinking about the way forward with transitional care options for BAC consumers. They need more work, but should capture the key conceptual points.

These documents are yet to be reviewed by our MHSS executive team (I will send through now), but I was keen for you to have something tangible for tomorrow's 7am t/conf.

Your feedback/comment very welcome.
