Hi David

please find enclosed the modified draft MOSD for Adolescent Extended Treatment and Rehabilitation Centre. I have enclosed a covering letter to add context to the MOSD changes. I have also enclosed some information Trevor Sadler sent to the group whilst overseas.

I had taken hard copies of this information with me yesterday to the Facility Project Team Meeting at Redlands as I had anticipated that you and Shirley would be there and that we could discuss this further.

The facility project team were keen to hear about the changes to the MOSD in relation to the building design. I mentioned some of the proposed changes but stated that it would be hard to comment on design implications without knowing firstly what current design has been confirmed, now the site has been chosen (most of the CYMHS group were unsure of the status of the current design) and secondly if the MOSD changes would be endorsed and when/how this would occur. We were unclear what the process would be now the CYMHS group have forwarded the recommendations to you.

Katie Eckersley suggested that before decisions could be made about design changes further discussion would need to occur to address the abovementioned issues. This will be reflected in the minutes of the meeting and I am sure Katie will be in touch with you in relation to this.

I would envisage that the next step is for myself and Brett McDermott (as representatives of the broader group) to meet with you to discuss the draft MOSD and further discuss the design and operational implications.

Please do not hesitate to contact me (or any of our working group members) if you require further clarity in relation to any of the enclosed information.

Kind Regards

Judi

Judi Krause  
Acting Executive Director
